LINGUAPHONE CONVERSATIONAL COURSES IN:

FRENCH — GERMAN
SPANISH — ITALIAN
RUSSIAN — DUTCH
IRISH — ENGLISH
AFRIKAANS — ESPERANTO
PERSIAN — CHINESE

"SPOKEN ENGLISH AND BROKEN ENGLISH"

by
G. Bernard Shaw

An invaluable record of the living voice of Mr. Bernard Shaw giving his views on the subject of which he is an acknowledged master—the English Language.

Mr. Shaw's fine voice is recorded on two double-sided 12-inch records with an accuracy and clearness worthy of the lucid, vivid style of his remarks.

Apart from their immediate educational value, the value of these unique records to future generations may be judged from the fact that the original records have been obtained for the National Collection by the authorities of the British Museum.

LINGUAPHONE LITERARY COURSES IN:

FRENCH — GERMAN
ITALIAN — ENGLISH
ESPERANTO

These courses, consisting of extracts in prose and verse from the great writers of each country, are spoken by famous native elocutionists. They provide the best method of becoming familiar with the rhythm and intonation of foreign speech, as well as with the finest national literature.

LINGUAPHONE TRAVEL COURSES IN:

FRENCH — ITALIAN
ENGLISH

These are rather more advanced courses, each spoken by a man and a woman. The course consists of 30 interesting talks about the History, Art and Commerce of the various countries, and also about their chief towns and objects of interest.

LINGUAPHONE FRENCH AND ENGLISH SONGS

A charming series of favourite songs, old and new, in which the singers give particular consideration to the enunciation of the words. Each series is supplied in an attractive album, together with a delightfully illustrated book of words.

Accessories to the Linguaphone Courses:

THE LINGUAPHONE GRAMOPHONE. This beautiful instrument is primarily designed for the perfect reproduction of every shade and cadence of human speech. It also reproduces music with unrivalled accuracy and beauty of tone.

THE LINGUAPHONE ADJUSTABLE REPEATER. This ingenious device enables the listener to repeat at will any desired portion of any record without guesswork or the necessity for playing the whole record through again.

THE LINGUAPHONE SOLOPHONE. This unique accessory conducts the sounds of the record direct to the ears of the listener so that others in the room are not disturbed. It reproduces very clearly and distinctly and enables the listener to use the gramophone at any time.
